

## For a better world, where everyone counts!

In recognition of its commitment to diversity and inclusion and its work with women entrepreneurs, the Microcrédit Montréal team was awarded the **2022 Prix Femmes d'affaires du Québec**, in the category "Organisation engagée dans une économie plus inclusive – Impact féminin". This prize acknowledges the organization's commitment and work with women entrepreneurs, who now represent about 70% of the beneficiaries of our entrepreneurship programs. The number of women we support has been on the rise in recent years.

# Women's entrepreneurship

## Training and support

Our special training program for women entrepreneurs continues to generate success, training 51 women entrepreneurs between April and December 2022.

**51**  
women  
entrepreneurs  
trained

# Internationally trained professionals

## In partnership with the Québec government

The loan program for the recognition of international credentials in collaboration with the Caisse d'économie solidaire Desjardins is ongoing.

### Beyond the numbers

We held two major events between April and December: a big networking fair in June and a conference/networking event to celebrate Latin-American heritage month in October. Over 200 people took part in these two gatherings.

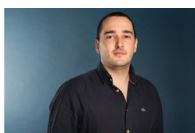

A new section was launched on our website to share the stories of many of our immigrant entrepreneurs and professionals.

#Achatlocal is still in operation on our site. The holiday season is a great opportunity to invite our community to find highly original gift ideas, such as gourmet products, decorations, body care, music and even works of art!
